

Droitwich Spa Angling Club

Social Media Code of Conduct

1. It should be recognised that the content of the DSAC website, WhatsApp Group, email exchanges and other social media platforms, represents the digital public persona of our club.
2. It is every member's responsibility to represent the club in the most positive light when posting online. The internet is an open source accessible by all so we must take care with the things we post.
3. Recognised DSAC platforms, WhatsApp and our website should be used predominantly for discussing fishing matters.
4. Never post in a way that might offend. Offensive subjects include extreme political views, sexist, homophobic, racist or negative religious content. This list is not exhaustive.
5. Members deemed to have transgressed any element of the Social Media Code of Conduct may be liable to sanctions by the Committee.
